

Press Release: February 2018

2017 SEHTA Healthcare Business Awards

SEHTA is pleased to announce the winners of our 2017 Healthcare Business Awards. Winners from the five award categories were all presented with their Awards on Tuesday 6th February, which was kindly supported by [Kent Surrey Sussex Academic Health Science Network \(KSS AHSN\)](#). We were honoured to have Dr Adrian Bull, Chief Executive, East Sussex Healthcare NHS Trust as our Guest Speaker.

Dr David Parry, CEO, SEHTA said; *“Once again our awards have demonstrated the excellence of small health technology companies in the South East. This year was once again very competitive; it’s a primary aim of SEHTA to help such companies’ access public and private sector markets with their innovative products and services”.*

Rob Berry, Head of Innovation, Kent Surrey Sussex Academic Health Science Network (KSS AHSN), said: *“KSS AHSN has a key role to help companies navigate the healthcare maze, so we’re delighted to continue to support the SEHTA Healthcare Business Awards. The awards help to recognise and reward great innovative work taking place across the region and we congratulate all the winners and finalists on their success”.*

The winner of this year’s **Export Award** went to [Thor Photomedicine](#) for their achievements in exporting their range medical laser and LED phototherapy systems to doctors, dentists, veterinarians and therapists.

The winner of this year’s **Innovation Award** went to [Solcom](#) for their achievements for their innovative development of a remote monitoring software for use within healthcare, nuclear and pharmaceuticals sectors.

The winner of the **Partnership with the NHS Award** went to [Hobbs Rehabilitation](#) for their partnership with the NHS as an independent provider of specialist neurological rehabilitation across the South of England offering inpatient, outpatient, community and residential therapy.

The next winner was for **Start-Up** and this was awarded to [everyLIFE Technologies](#) for creating The PASSsystem, which is a digital care planning and monitoring solution now in use primarily within the care sector and openPASS, which is a component of The PASSsystem designed to enable family members to gain access to the care notes for complete transparency of care.

The final award of the evening went to [270Vision](#) for **Outstanding Achievement** for their achievements in developing their innovative medical-grade wearable sensor and advanced body data analysis technology for the medical and professional sports sectors.

The winners of our awards have all been entered into the national MedilinkUK Awards taking place on 25 April at the Ricoh Arena in Coventry, which is part of the [2018 Med-Tech Innovation Expo](#).

We would also like to thank all the Finalists in the various categories for their outstanding achievements in 2017.

Finalists were:-

Export: [Deltex Medical](#)

Innovation – [Deltex Medical](#)

Partnership with the NHS – [Message Dynamics](#)

Start-up – [Bodychillz](#)

Outstanding Achievement – [Beamline Diagnostics](#)

ends

Notes for editors

South East Health Technologies Alliance (SEHTA)

Founded in 2005, the **South East Health Technologies Alliance (SEHTA)** is now one of the biggest health technology networking organisations in the country. Since its inception, it has grown to **1300 members from 20 different countries**. SEHTA provides significant support to companies, universities and public and private health providers through publicly-funded resources and programmes and private consultancy services. SEHTA has built excellent relationships with Academia, Business and Care/Clinicians and it sees itself in a unique position as the interface between them. The company has particular expertise in digital health.
