Press release: March 2017

Launch of The London MedTech Directory & Review

SEHTA is pleased to announce that they have recently launched [The London MedTech Directory & Review](#) in partnership with the Mayor of London's office at the [GLA](#) and supported by [MedCity](#). The directory was launched at the [London MedTech: Realising the Potential event](#), which was held in London's Living Room at the GLA on 15th March.

This first London MedTech Directory & Review 2017 starts to identify who is in the sector, where they are and what they do. This directory also offers comment on particular sub-sectors which are emerging, and some thoughts for the future. We plan to release updated versions on an annual basis, keeping pace with the growth and strengthening of this exciting sector in London.

Dr David Parry, CEO, SEHTA said; *"London is a global city with all parts of the health and care jigsaw puzzle in abundance. The London MedTech Partnership is working to put the pieces together and the Review and Directory is one of those important corner pieces".*

Rajesh Agrawal, Deputy Mayor for Business, said: *"London is home to some of the most innovative health technology companies alongside globally significant universities and research organisations. The Directory and Review identifies some of the key players in the London health scene, particularly the small companies who are responsible for much of the innovation in the sector. I am pleased to support the publication of this directory - a great way to find contacts and start collaborations for the benefit of the London economy and the health of its citizens".*

Notes for editors

South East Health Technologies Alliance

Founded in 2005, the **South East Health Technologies Alliance (SEHTA)** is now one of the biggest health technology networking organisations in the country. Since its inception, it has grown to **1300 members from 20 different countries**. SEHTA provides significant support to companies, universities and public and private health providers through publicly-funded resources and programmes and private consultancy services.

SUPPORTED BY
MAYOR OF LONDON

SEHTA has built excellent relationships with Academia, Business and Care/Clinicians and it sees itself in a unique position as the interface between them. The company has particular expertise in digital health.
